

GOUT & URIC ACID
EDUCATION SOCIETYSM

Gout & Uric Acid Education Society
Fact Sheet

Mission To educate the public and health care community about gout and the related health care consequences of hyperuricemia with the aim of improving the quality of care and minimizing the burden of gout.

Objectives

- Develop and distribute consumer educational materials regarding gout and hyperuricemia (elevated blood urate or uric acid levels)
- Raise awareness of the medical consequences associated with hyperuricemia and its management
- Build strategic alliances with other health care associations that address gout and uric acid issues

Board of Directors

The Gout & Uric Acid Education Society is a nonprofit group of health care professionals with expertise in rheumatology, nephrology, pharmacy, cardiology and nutrition.
